LUIZ BENEVIDES

Software Developer | B.S. in Information Systems Student

Corumbá, MS — Brazil (Available for Remote) • luixbenevides@gmail.com • linkedin.com/in/luiz-felipe-quevedo-benevides • github.com/BenevidesLuiz

PROFESSIONAL SUMMARY

Information Systems student at UFMS with a vocational IT degree from IFMS, focused on back-end software engineering and reliable architectures. Hands-on experience developing and maintaining a Java desktop clinical system, delivering table UI refactoring, robust form validations, and data auditability. Strong problem-solving mindset and committed to continuous technical development.

PROFESSIONAL EXPERIENCE

Software Development Intern March 2025 – April 2026

UFMS Psychology Clinic — Corumbá, MS, Brazil (Remote)

- Restored the create, edit and delete features, which were broken when I joined, including fixing the faulty SQL statement that blocked record edits.
- Fixed a bug where the refresh button rebuilt Swing panels and broke the layout; built a reusable button class that standardized every button in the system.
- Implemented role-based masking of sensitive data (researchers under LGPD restrictions) and soft delete to preserve clinical history.
- Built search filters tied to the authenticated user, improved access control and replaced technical values (true/false) with “Yes/No” for end users.

Technical Support & Helpdesk September 2023 – November 2023

Embrapa — Information Technology Center (NTI) — Corumbá, MS, Brazil (On-site)

- Helped fix a Windows update failure that blocked local user logins (rolled back the update and deferred further updates).
- Supported UPS (no-break) and workstation maintenance; observed and assisted with a server operating system upgrade.

EDUCATION

Bachelor of Science in Information Systems (B.S.) Expected Graduation: 2027

Federal University of Mato Grosso do Sul (UFMS)

- **Databases:** relational modeling, SQL (INNER JOIN, GROUP BY, HAVING) and evaluating when an index is worth its cost.
- **Systems Modeling (UML) & OOP:** designing classes, abstract classes and interfaces; object-oriented programming in Java.
- **Web Programming:** consuming public APIs and building a web application with the retrieved data.

Associate Degree in Information Technology 2021 – 2023

Federal Institute of Mato Grosso do Sul (IFMS)

- **Capstone Thesis:** *Blockchain: An Exploratory Study on Crypto Asset Digital Wallets* — comparative research on architecture, security, cryptography (SECP256K1, SHA-256) and BIP-32/38/39 standards in wallets.

ADDITIONAL COURSES & LANGUAGES

- **English:** Golden 1 Level (Upper-Intermediate / B2) — CNA Language School
- **Java OOP & Java Swing Desktop:** Udemy (Prof. Nelio Alves) & YouTube
- **Blockchain Engineer Certification:** Udemy (theoretical foundation for IFMS thesis)
- **2D Game Development (GameMaker/GDevelop) & Python:** Udemy

TECHNICAL SKILLS

Languages:	Java, C#, JavaScript, Python, PHP, GDScript
Databases:	MySQL, MariaDB, SQLite
Tools & Version Control:	Git, GitHub
Engines & Frameworks:	JavaFX, Swing, Unity, Godot, GameMaker, Laravel, Flutter
Currently Learning:	SQL, Artificial Intelligence, Java, JavaScript, Python, GDScript

SELECTED PROJECTS

MusicPlayer (Desktop Media Player) Java (JDK 25), Swing, JavaFX, yt-dlp, ffmpeg

- Engineered a desktop multimedia player supporting .mp3/.mp4 playback, dynamic artwork rendering, and custom controls.
- Integrated external CLI utilities (yt-dlp and ffmpeg) for automated media download and conversion. (Collaborative project).

The Shadow Keep & Gravenfal Unity, C#, Object-Oriented Programming

- Programmed player movement mechanics, state machines, combat loops, and modular game architectures in C#.
