LUIZ BENEVIDES

Junior Software Developer | Java & Back-End | Information Systems

Corumbá, MS — Brazil (Available for Remote) • **luixbenevides@gmail.com** • **linkedin.com/in/luiz-felipe-quevedo-benevides** • **github.com/BenevidesLuiz** • **benevidesluiz.github.io**

PROFESSIONAL SUMMARY

Information Systems undergraduate (UFMS) and IT Technician (IFMS) with 1 year of hands-on experience developing and maintaining a Java desktop application (Swing and JDBC) integrated with a relational database. Focused on SQL query debugging, CRUD implementation, role-based access control, LGPD data protection, and object-oriented programming.

TECHNICAL SKILLS

Languages:	Java, JavaScript, C#, Python
Databases:	SQL, MySQL, MariaDB, SQLite, JDBC (PreparedStatement), Relational Modeling
Frameworks & Testing:	Java Swing, JavaFX, Node.js, Express, Jest, Supertest
Engineering & Tools:	Object-Oriented Programming (OOP), DAO & MVC Patterns, UML, Git, GitHub

PROFESSIONAL EXPERIENCE

Software Development Intern — March 2025 – April 2026

UFMS Psychology Clinic — Corumbá, MS, Brazil (Remote)

- Restored broken create, update, and delete (CRUD) operations in the clinic's Java (Swing and SQL) desktop system by identifying and fixing the SQL update query that blocked record persistence.
- Implemented logical deletion (*soft delete*) to preserve clinical history and role-based masking of sensitive patient data to comply with LGPD privacy regulations.
- Built search filters scoped to the authenticated user, refined role permissions, and replaced raw boolean flags (*true/false*) with clear status labels ("Yes/No") across tables.
- Fixed a Swing panel layout reset bug on screen refresh and engineered a reusable button class to standardize component dimensions and styling across the interface.

IT Support & Helpdesk Intern — September 2023 – November 2023

Embrapa Pantanal — Information Technology Center (NTI) — Corumbá, MS, Brazil (On-site)

- Diagnosed and rolled back a Windows update that blocked local user authentication, maintained workstations and UPS units, and assisted with a server operating system upgrade.

SOFTWARE DEVELOPMENT PROJECTS

AgeCon — Contact Management System (github.com/BenevidesLuiz/AgeCon) — Java, Swing, JDBC, MySQL / MariaDB

- Desktop application structured into *model*, *dao*, *controller*, and *view* layers, using Java interfaces to enforce persistence and business logic contracts.
- Implemented full CRUD and parameterized search via JDBC (*PreparedStatement*) over a normalized relational schema with foreign-key constraints and input validation.

Movie Catalog REST API (github.com/BenevidesLuiz/atividadesweb) — JavaScript, Node.js, Express, SQLite, Jest

- Layered back-end API (*routes*, *controllers*, *services*, *repositories*, and *models*) with relational SQLite persistence, payload validation, and HTTP error handling.
- Session-based authentication (*express-session*), route-protection middleware, and automated unit and integration tests using Jest and Supertest.

MusicPlayer — Desktop Media Player (github.com/BenevidesLuiz/Player-de-Musica) — Java, Swing, JavaFX, yt-dlp, ffmpeg

- Desktop audio and video player (*.mp3*/*.mp4*) integrated with external CLI tools (*yt-dlp* and *ffmpeg*) for automated media download and format conversion.

EDUCATION

Bachelor of Science in Information Systems (B.S.) — Expected Graduation: 2027

Federal University of Mato Grosso do Sul (UFMS) — Pantanal Campus

- **Relevant Coursework:** Databases (relational modeling, SQL queries with *INNER JOIN*, *GROUP BY*, *HAVING*, and index analysis), Object-Oriented Programming in Java (OOP), Systems Modeling (UML), and Web Programming.

Technical Diploma in Information Technology — 2021 – 2023

Federal Institute of Mato Grosso do Sul (IFMS) — Corumbá Campus

- **Capstone Thesis:** *Blockchain: An Exploratory Study on Crypto Asset Digital Wallets* — technical study on elliptic-curve cryptography (SECP256K1), hash functions (SHA-256), and BIP-32/38/39 standards.

LANGUAGES & ADDITIONAL TRAINING

- **Languages:** Portuguese (Native) • English: Upper-Intermediate (B2 — Golden 1 Level) — CNA Language School.
- **Additional Training:** Complete Java Object-Oriented Programming + Projects (Udemy — Prof. Nélio Alves) and Java Swing for Desktop Applications.
